English . Brand New Book. As we continue to embrace a world where the lines between the physical and digital are increasingly blurred, we are beginning to see a maturing vision for architecture that actively participates in our lives. Our architectural environments are becoming so inextricably tied to our technological living trends that they begin to define each other in a corresponding manner. Such is a physical world that is not only digital, but that is also seamlessly networked and connected. IA: Adaptive World takes us inside the rapidly maturing landscape of projects and trends that have finally begun to catch up with the past. It encompasses both buildings and environments that have been designed to respond, adapt, change and come to life. The book highlights a selected number of groundbreaking projects with concise and simple descriptions that are beginning to define a new future of interaction. The projects include insight into the technology that will be an inevitable and completely integral part of how we will make our buildings and environments in the future. The projects are appropriately organized therefore not by how they...
