Let's face it, we live in a fast-paced world. In order to succeed, you must have the ability to absorb information rapidly, and to think logically and creatively - all at the same time. Students must discover how to conquer the high-pressure challenges of an intensely competitive society. With technology on the rise, knowing how to learn efficiently will be the most important skill you ever possess. Unfortunately, most of us were never taught the actual art of learning. Many students struggle, not because they aren't smart, but because they simply were never taught the rare techniques presented in this book. Well, that's all about to change! It doesn't matter if you're a top student, or barely passing, you can finally learn more in less time. Accelerated Learning Techniques for Students will show you proven steps to maximize your potential. Some life-changing secrets you'll discover inside include: recommended ways to manage your physical and mental energy why negative emotions such as stress and anxiety literally destroy your ability to learn how to double your learning capabilities in 10 minutes or less how to develop a personal learning toolkit to master any subject time-management tips for the busy student - extremely valuable 11 practical memory techniques so you retain more of what you learn 5 ninja note-taking techniques (that will impress even your teachers) 20 unique tips for students wanting to...
