

DELFT PROTOTYPE LABORATORY (Paperback)

By M. Eekhout

IOS Press, 1900. Paperback. Book Condition: New. 254 x 173 mm. Language: English . Brand New Book. The Prototype Laboratory initiated and maintained by the Chair of Product Development at the Faculty of Architecture, TU Delft, has set an example in architectural education for hands-on learning-by-making for students. According to the authors of this book, in the current curriculums time spent on practical work is not rewarded and students are educated in an abstract concept of architecture, not getting a proper feeling for materialization. A semester of designing, engineering, producing and building a prototype with their own hands after their own design often gives students a boost in their education. The Delft Prototype laboratory.
